1. Aims and Methods of Moral Philosophy. The most basic aim of moral philosophy, and so also of the Groundwork, is, in Kant's view, to "seek out" the foundational principle of a "metaphysics of morals," which Kant understands as a system of a priori moral principles that apply the CI to human persons in all times and cultures. Kant pursues this project through the first two chapters ...

An ideology is a collection of normative beliefs and values that an individual or group holds for other than purely epistemic reasons. The term is especially used to describe a system of ideas and ideals which forms the basis of economic or political theory and policy. In political science it is used in a descriptive sense to refer to political belief systems.

Ethics or moral philosophy is a branch of philosophy that involves systematizing, defending, and recommending concepts of right and wrong conduct. The field of ethics, along with aesthetics, concerns matters of value, and thus comprises the branch of philosophy called axiology.. Ethics seeks to resolve questions of human morality by defining concepts such as good and evil, right and wrong ...

Constitutionalism. Constitutionalism is the idea, often associated with the political theories of John Locke and

the "founders" of the American republic, and equated with the concept of *regula iuris*, the "Rule of Law", that government can and should be legally limited in its powers, and that its authority depends on enforcing these limitations. The following links and documents explore this ...

Woman suffrage is inevitable. Suffragists knew it before November 4, 1917; opponents afterward. Three distinct causes made it inevitable. First, the history of our country. Ours is a nation born of revolution, of rebellion against a system of government so securely entrenched in the customs and ...
