

residential security products pdf

Origins. The origins of modern residential mortgage-backed securities can be traced back to the Government National Mortgage Association (GNMA), although variations on mortgage securitization existed in the U.S. in the late 1800s and early 1900s. In 1968, Ginnie Mae was the first to issue a new type of government-backed bond, known as the residential mortgage-backed security.

The term door security may refer to any of a range of measures used to strengthen doors against door breaching, ram-raiding and lock picking, and prevent crimes such as burglary and home invasions. Door security is used in commercial and government buildings, as well as in residential settings. Some strengthened doors function as fire doors to prevent or inhibit the spread of fire.
