Drop shipping is a supply chain management method in which the retailer does not keep goods in stock but instead transfers the customer orders and shipment details to either the manufacturer, another retailer, or a wholesaler, who then ships the goods directly to the customer. As in retail business, the majority of retailers make their profit on the difference between the wholesale and retail ...

Shipping container architecture is a form of architecture using steel intermodal containers (shipping containers) as structural element. It is also referred to as cargotecture, a portmanteau of cargo with architecture, or "arkitainer".. The use of containers as a building material has grown in popularity over the past several years due to their inherent strength, wide availability, and ...
