Mother is a 1989 role-playing video game developed by Ape and published by Nintendo for the Famicom. The game is modeled on the gameplay of the Dragon Quest series, but is set in the late 20th-century United States, unlike its fantasy genre contemporaries. Mother follows the young Ninten as he uses his great-grandfather's studies on psychic powers to fight hostile, formerly inanimate objects ...

If the watchword of the market economy is profit, the watchword of bureaucracy is growth. How are these respective objectives to be achieved? The way to attain profit in a market economy is to beat the competitors in the dynamic, ever-changing process of satisfying consumer demands in the best possible way: to create a self-service supermarket instead of the older grocery store (even a chain ...

The history of American football can be traced to early versions of rugby football and association football. Both games have their origin in varieties of football played in Britain in the mid-19th century, in which a football is kicked at a goal or kicked over a line, which in turn were based on the varieties of English public school football games. ...

What is the greatest threat to humanity? We are, of course....and our technology. Like a dangerous weapon in the hands of a child, technology has overtaken our capacity to control potential consequences. Oxford University's Future of Humanity Institute, led by director Nick Bostrom, says we have entered this new kind of technological era that we have no track record of surviving.

It is a responsibility we are failing to meet. According to statistics from the U.S. Department of Education, the gap in eighth-grade reading and math test scores between low-income students and their wealthier peers hasn't shrunk at all over the past 20 years. (The gap between poor and wealthier fourth-grade students narrowed during those two decades, but only by a tiny amount.)
