the history of epileptic pdf

Transient epileptic amnesia (TEA) is a rare but probably underdiagnosed neurological condition which manifests as relatively brief and generally recurring episodes of amnesia caused by underlying temporal lobe epilepsy. Though descriptions of the condition are based on fewer than 100 cases published in the medical literature, and the largest single study to date included 50 people with TEA ...

Transient epileptic amnesia - Wikipedia

Epilepsy is a group of neurological disorders characterized by epileptic seizures. Epileptic seizures are episodes that can vary from brief and nearly undetectable periods to long periods of vigorous shaking. These episodes can result in physical injuries, including occasionally broken bones. In epilepsy, seizures tend to recur and, as a rule, have no immediate underlying cause.

Here we list the different AEDs and link to information about what type of seizures they are used for, doses, and possible side effects from either the British National Formulary (BNF), British National Formulary for Children (BNFC), the electronic Medicines Compendium (eMC) or the National Institute for Health and Care Excellence (NICE) clinical guideline for epilepsy (CG137).

List of anti-epileptic drugs (AEDs) | Epilepsy Society

Published November 1, 2007. Psychogenic nonepileptic seizures (PNES) are an uncomfortable topic, one that is difficult for both patients and healthcare professionals to discuss and treat. Yet it is estimated that PNES are diagnosed in 20 to 30% of patients seen at epilepsy centers for intractable seizures. 1 Moreover, in the general population the prevalence rate is 2-33 per 100,000, making ...
