The ARIA Charts are the main Australian music sales charts, issued weekly by the Australian Recording Industry Association. The charts are a record of the highest selling songs and albums in various genres in Australia. ARIA became the official Australian music chart in June 1988, succeeding the Kent Music Report which had been Australia's national charts since 1974.

Discussion. The data from this case study of a single family present evidence of adverse health effects and reflect exposure to methamphetamine that occurred while living in a home with environmental methamphetamine surface contamination levels in the range of 11.7–26.0 µg/100 cm². The highest levels of methamphetamine detected in the hair samples analyzed were from the two younger children.

Table notes Although the headline ranking figures show changes in the data year to year, the pattern of clustering among the schools is equally significant. Some 215 points separate the top programme, University of St Gallen, from the school ranked number 80. The top 12 participants, from University of St Gallen to Esade Business School, form the top group of Masters in Management providers.
